

I CHALLENGE YOU!

Vaynor First School – Miss Sparkes' Home family challenges

Great British Bake off Challenge

This week can you get busy in the kitchen and be inspired by the Great British Bake off. What beautiful creations can you make? Can you follow or write up the recipe? Remember to use your maths skills to measure out the ingredients accurately.

Puzzle Challenge

This week I am challenging you to make your own puzzles. You could produce a piece of artwork then cut it up into puzzle pieces. Can you put it back together again?

Nature Challenge

Leaf bowl craft

For this challenge, you will need to go and collect some leaves. Then grab two bowls and cover one of them with cling film. Next layer the leaves over the cling film (inside the bowl) so it is well covered using diluted PVA glue to hold them in place. Then put cling film over the top of the leaves and put the second bowl on top to hold the leaves in place.

After a few days drying in a warm place, remove the bowl and cling film, and you'll be left with a beautiful leaf bowl.

Geography Challenge

Draw a map of your garden. Don't forget to include a key! Then use your map to direct someone around your garden using: - North, South, East and West - Forwards, Backwards, left and right.

Art challenge

Rainbow Shaving foam art.

You could do any picture you fancy! Using the paint, make a pattern on the shaving foam and then print your picture by placing the paper on top of the shaving foam.

Wellbeing Challenge

Smile challenge

Do you know how infectious a smile can be? If you smile at someone, it could make their day! How many people can you smile at?

Art challenge: Draw a huge smiling face and decorate it with all the things that make you smile or laugh.

These are optional home challenges. I hope that these will keep you busy and smiling! Take lots of photos to show us and send them to Miss Sparkes on Year2@vfs.endeavourschools.org
