age 11+

Based on [753 reviews](#)

Kids say

age 10+

Based on [1483 reviews](#)

Potential Risks:

- Chat function – Might allow strangers to contact your child
- There are over 30 million users so you will have no idea who your child is talking to.
- Children are encouraged to make purchases in the game with real money. Kids can purchase Robux for cash which are then spent on equipment and outfits in the games.

Potential Risks:

- May not be age-appropriate for your child
- Plenty of inappropriate content can surface by typing in the most innocent of search terms
- Comments below video often contain inappropriate language

There are positives as well . . .

*Online games
can enhance
teamwork
and creativity*

*Add to the
child's store
of knowledge*

*Households with
computers
perform better
academically*

*Improve both
visual
intelligence and
hand-eye
coordination*

But technology can affect children's development...

Screen-based entertainment increases central nervous system arousal

Sleep cycles are affected by blue light from screens

Millennials are more forgetful than OAP's

One study found that the more distracted you are the less able you are to experience empathy

Risk is not harm. Positive action can limit risks becoming harmful

If using a smartphone, check content lock is set

If using social networks, check privacy settings

Set parental controls on your home broadband

Be engaged

Talk to your child about what they like to do online and what they know about how to stay safe

Control app downloads and purchases

Know how to report

Make sure your child knows how to report cyberbullying if it happens to them or someone else

Keep informed
