

### **Leaf Threading**

Great fine motor activity which also involves the outdoors. You could collect leaves from your garden or extend the activity with a welly walk to your local park. Your child can collect a range of different leaves in size, shape and colour to thread onto a piece of string or wool.

### **Rainbow Collage**

Make a rainbow to support our NHS and all key workers. You could do this using a template made from paper or card then be as creative as you like making the rainbow. You could use coloured paper/card, tissue, beads, buttons, pasta, old birthday cards etc. Alternatively use paint to make hand/finger prints. Have fun!
