

Game of Pairs

You will need:-

Small pieces of paper (size of playing cards)

Pen or pencil

Pairs is a game for 2 or more players.

Using the “positive words” generated over the previous weeks, write the words twice on the papers.

(Depending on children's age maybe start with 15 different words. This can be increased as required).

Then place the pieces of paper face down and mixed up. The first person starts by turning over 2.

If they match then you have a PAIR and you have another go. If they don't match Turn then over leaving them in the same place. Next person has a go.

You need to remember where the words are so you can find all the matching pairs.

Have fun!!
